Elaborate Preparations Made for the Burial of the Anarchists.

If Allowed It Will Be the Greatest Feneral Ever Seen in Chicago-Labor Organizations Promise to Turn Out In Lauge Numbers-A Brass Band to Play Dirges-Speakers Will Address the Crowd at the Cemetery-Anarchy in Other States.

[SPECIAL TO THE EVENING WORLD.] CHICAGO, Nov. 12.—There is still another scene to be enacted in the Anarchist tragedy that of the funeral to-morrow. Everybody agrees the chances for trouble when the five men are buried are tenfold greater than they were at the execution. Anarchy now is looking for revenge, and men who are so thoroughly infatuated with a principle are not likely to quietly submit to what they claim was an act of injustice and outrage. Boasts are made that the State will be made to suffer for the death of the five Anar-

chists. To-morrow, when the bodies are lowered into the grave, wives, daughters and sweethearts will go into hysterics; sympathizers will be worked up to a frenzied state of excitizenent, and a clash with the police is far

The authorities are confident that they will be able to successfully cope with any uprising which may be made, yet it is uscless to disguise the fact that they feel more nervous over the outcome of to-morrow's events than they did at the jail proceeding's yesterday.

ANGRY PROVIDENCE ANARCHISTS.

"The People," a Newspaper, Prints an Excited Editorial-A Meeting to be Held. (SPECIAL TO THE EVENING WORLD.)

PROVIDENCE, Nov. 12.—The People, a news paper started about two years ago in the interests of the workingmen, but which has of late drifted toward anarchy, came out this morning with every column rule turned, and the whole sheet in double mourning for the Anarchists hanged in Chicago yesterday. On the titlepage is the cut of a man suspended from a gallows; over it the legend: "The Cross of gallows; over it the legend: "The Cross of the New Crusade," and under it, "In Hoc Signo Vinces;" "Though You May Destroy the Singer, You Can Ne'er Destroy the Song." Also, "We Mourn the Death of Free Speech, Free Assembly," "The Farce of Picking a So-called Jury, the Jury a Picked, Packed, Prejudiced, Perjured Pack, Prepared for Premeditated Murder." On the last page is a solid column of black-faced type, which reads as follows:

Mass memorial meeting in honor of the martyrs at Chicago to be held in the hall over the People office, No. 5a North Main street, Sunday afternoon at 2 o'clock. The case reviewed its relation to the labor movement explained. Several of the best speakers of the city will present the tragedy. Mrs. Ellen Bowles, late of Chicago, will address the meeting. For years the moguis of the Board of Trade its have been yowling for a strong central government, and ever openly advocated a monarchy. In Culcapo they have consummated one of the most damnably diabolical plots in history. The moneyed mogula seem bent on thoroughly proving to the wage slaves of this country that a labor reformer has no rights that they are bound to respect. They have led many to believe that the Constitution is exasperating, the Declaration of Independence a fable, our vanued freedom as addor's boast, and the Stars and Stripes a finanting lie. Marking a seven fold greater epoch in history than the freedom of a black race, seven martyrs were condemned to die for denouncing the criminal custom of holoing the millions in poverty and de radation that the few may revel in luxury. They were classed with the lowest felon. Their martyred bodies were entombed.

Look out for the social carricquake, the spiritual resurrection. It must come. The tomb cannot hold free speech. The grave cannothide liberty. The gallows i cannot choke the New Jerusalem of liberty, equality and fraternity.

There are about two hundred Anarchists here, and this notice of their intended meeting will be brought to the attention of the authorities.

ANARCHISTS TO BE REPRESSED.

The New York Police Authorities to Watch Them Sharply.

The Anarchists in this city should be on their good behavior, for hereafter they will be kept under strict police surveillance. At every meeting will be detectives, who will report to Supt. Murray all incendiary speeches, and agitators whose vehemence leads them to use

agitators whose vehemence leads them to use language "calculated to cause a breach of the peace," will be arrested and prosecuted under the same section of the code that sent Herr Most to prison.

As far as public parades and mass meetings are concerned, Superintendent Murray and President French agree that while the present law stands the police authorities are powerless to prevent them. The law provides that societies or others desiring to join in a civic or political parade shall, on filing an application at least six hours before the hour for such parade, be granted a permit. There is no discretion allowed the police in the matter, the law being mandatory.

The captains of the east side precincts where Socialists congregate, have been instructed by Superintendent Murray as to what measures to take and warned that they will be held responsible for any disorder or improper assemblages within their precincts.

The police authorities believe that the Anarchists are cowed in this city, and the present

Should they become obstreperous, they will be taught an impressive lesson promptly. KITTY IS HER OWN MISTRESS.

DR. GOFF IS THEREFORE NOT GUILTY OF THE CHARGE OF ABDUCTION.

Judge Vaughn Thinks that He is a Man Bad Morals and Holds Him in \$600 Ball to Answer a Charge of Grand Larceny Preferred by Kitty's Father-The Girl Greets Her "Guardian" Affectionately.

The gossips who gathered in the Stapleton Police Court this morning were treated to another very affecting scene between pretty Kitty McKernan and Dr. Cleveland W. Goff, the white-haired Brooklyn physician, who was charged with abducting her from her home on Staten Island.

Dr. Goff passed his second night on the

KITTY M'KERNAN. quarters. Kitty came over from the Allman House, Fourth avenue and Tenth street, and arrived at the jail at 9 o'clock. She put her face close to the bars, and the doctor's

gray mustache came very close to her lips. When Policeman Goggin opened the cell loor, Kitty passionately embraced the doc-

door, Kitty passionately embraced the doctor and clung to him all the way to the court-house. The crowd gathered there could not at all abash her. She drew her chair close to the doctor and nestled her face on his shoulder. Throughout the hearing, which lasted two hours, the pair kept up an affectionate conversation.

James McKernan, father of Kitty, told on the stand the story of his woes, with frequent digressions. He laid the blame of his child's ruin first on Dolores Dartmore and then on Dr. Goff. Kitty was a good girl, he said, until Dolores got her to walk in the woods at night with her male friends.

"One day," he said, "Dolores brought a two-months-old baby to my house and begged me on her knees to take care of it. I did not know who the father was, but I tried to get my child away from such surroundings. But she had become infatuated with Dr. Goff, and would not leave him, Afterwards I followed her and him to 34 East Eighth street, New York, and later to the Allman House. I know that my daughter has been living with him."

Judge W. H. Power, for the defense, compelled Mr. McKernan to admit that Kitty was born March 12, 1879, and was therefore between eighteen and nineteen years old.

"The girl is old enough to make her choice

between eighteen and nineteen years old.
"The girl is old enough to make her choice whether she will stay with her father or with Dr. Goff," said the counsel; "and the charge of abduction falls through."

Judge Vaughn said that the penal code left him no option in the matter. He dismissed the case.

Dr. Goff thought that his troubles were

over, but it was not so. McKernon pressed the second complaint, and swore that after Mrs. McKernan's death Goff took a sofa, a bed, two looking-glosses and a stove from the Winchester mansion and had them sent to 34 East Eighth street, New York. Other articles of furniture belonging to McKernan Goff had sold to parties in West Brighton.

Manager Van Clief, of the United States Express, corroborsted McKernan's statement as to Goff sending the goods to New York. Mrs. Annie Lynch swore that she paid Goff \$15 for a bedstead and lounge from McKernan's house.

\$15 for a bedstead and lounge from McKernan's house.

Dr. Goff got very excited at this testimony and said that Mrs. McKernan told him to sell the goods for the benefit of the children.

"I think your morals are very bad," said Judge Vaughn, sternly, "and I shall hold you for jury trial on this charge of larceny," "This is an outrage;" said the doctor, fairly boiling with indignation.

Kitty threw her arms about "Guardian" and burst into a flood of tears.

He was led away to jail, and she went to her aunt's house in the village. Mrs. Lynch offered bail for Dr. Goff, but Judge Vaughn, said that she would not do. He wanted security to the amount of \$600 for the doctor's appearance for trial on Monday afternoon.

Could Not Stand Success.

John Wing, a truckman employed by the People's line of steamboats, was charged in Jefferson Marline of steamboats, was charged in Jefferson Market Police Court this morning with stealing fourteen barrels of flour on Oct. 26. After loading his
truck, with the assistance of Pier Clerk Hogan, he
went to peddie the flour to bakers. He tried to
dispose of some to the bakery at Spring and Elizabeth streets. Wing was so elated over his success
that he got drank and fell off his truck. He was
then arrested and sent to Bellevue Hospital, where
has been until now. Frank C. Royal, agent of
the People's line, appeared in court and made a
charge of grand farceny against him. He was
then committed for the action of the Grand Jury,

THE LAMAR-SPARKS CONTROVERSY.

The Friends of the Land Commissioner Hint at Interesting Disclosures. ISPECIAL TO THE EVENING WORLD.1

WASHINGTON, Nov. 12 .- The controversy between Secretary Lamar and Land Commissioner Sparks excites a good deal of comment here. No doubt is expressed as to how the President will act. It is believed that Mr. Sparks's resignation will be promptly forthcoming and as promptly accepted. But the question is asked why ed. But the question is asked why does Mr. Lamar, who is soon to leave the Department for the Supreme Bench, wish to get Mr. Sparks out at this late day? Their opinions have been frequently at variance during the last three years without causing an open rupture. Some think that the step taken by Mr. Lamar indicates that he is to remain at the head of the Interior Department, and that the President will select another man for the Supreme Court vacance. other man for the Supreme Court vacancy other man for the Supreme Court vacancy.

The opinion that is generally accepted, however, is that Mr. Lamar has taken this step at the suggestion and request of Mr.Vilas. Mr. Sparks has been violently opposed to all railroad corporations, and has almost invariably decided against them on matters coming before him for adjudication. Mr. Vilas has been railroad attorney, and it is a second to the control of th nim for adjudication. Mr. Vilas has been a railroad attorney and, it is asserted, has relations and friends interested in railroads in the Northwest, When Mr. Vilas's transfer to the Interior Department was first suggested to him, it is said that he made his acceptance conditional on Mr. Sparks's removal. Mr. Sparks's friends are very bitter, and the controversy may lead to some interesting disclosures. may lead to some interesting disclosures.

In the Roosevelt Hospital his case is considered a very hop (ii) one. He says that the occurrence was purely acc dental, and that Daly was in no way to blame. Foreigners in the Mines Called Upon to Avenge the Anarchists.

The Mining Town Where the Trouble is Going on is Remote From Railways and the Details are Meagre-Mayor Manson and His Militia Are Hurrying There on a Special Train-Both Sides Reported " Fortified and Fully Armed."

ISPECIAL TO THE EVENING WORLD. I

LYNCHBURG, Va., Nov. 12.-There is trouble at Pocahontas between desperate miners and the people, and this city is filled with wild rumors of riot and bloodshed. Telegraph facilities hereabouts are limited, and it is difficult to learn the real nature of the disturbance.

But it must be exceedingly serious, for Mayor Manson and all the militia this city could get together on short notice have gone to Pocahontas to take a hand in things. They were sent there by a peremptory order from Gov. Lee. They are travelling there now by special train at the rate of fifty miles an

The meagre information obtainable here is that the trouble arose over a despatch from Chicago calling upon the foreigners in the mines to avenge the death of the Anarchists. Anarchy of the demonstrative Chicago type has a strong root in the mining regions hereabouts. The men who work in the mines are mostly ignorant immigrants from Germany, Italy and Russia, sent here by the carlcad by contractors in New York. A man's life here is just as hard as it is in the coal fields of Pennsylvania, where the mon are now on strike. It takes incessant labor

to ward off absolute privation. Pocahontas, though a small and comparatively insignificant place, is largely populated by these immigrant miners, subject to very little discipline and free to shout all the Anarchistic speeches they want to so long as they don't take life and property. But the orderly and respectable people have long disliked them and have shown their hostility without stint. In of the cottage in Union square. The platcolored people, who strongly dislike the foreigners. With this state of things good foundation. One despatch received here this afternoon says: "Both sides are

fortified and armed." Jesse Pomeroy Will Never See Again.

[SPECIAL TO THE EVENING WORLD,]
BOSTON, Nov. 12.—Jesse Pomeroy will probably ever again attempt to escape from prison. He is totally blind, the result of his last attempt to reach the open air. Pomeroy calculated when he put his blanket up in front of his cell and turned on the gas that he could get out of the way before the ex-plosion took place, but he reckoned falsely as the ignited gas rendered him unconscious and deprived him of the sense of sight forever. The walls of the prison near his cell were lovered by the shock prison near his cell were loosened by the shoot.

That is the only evidence now, besides Pomeroy's sightless eyes, of the last escapade of this notorious murderer. How he secreted the file by which he sawed the iron bar is not yet explained. B probably never will be known.

Kulghts Declare the Strike Off. [SPECIAL TO THE EVENING WORLD.] PITTSBURG, Nov. 12. -Six months ago the workmen of the Pennsylvania Salt Manufacturing Company struck for higher wages. The demand was refused and new men were employed. There were numerous and serious collisions between the workers and strikers, and strike forces were at times necessary to prevent bloodshed. The K. of L. has just declared the strike off. But very few of the old men will be taken back.
